Fictional demonstration CV. All names, organizations and experiences are invented.

SUMMARY

Computing graduate with practical projects in data preparation and reporting.

EDUCATION

Bachelor of Computer Science | Harbourview University (fictional) 2026

Relevant coursework: Programming, Statistics and Critical Thinking.

EXPERIENCE

Student Data Assistant | Harbourview University (fictional) 2025

- Used Python and SQL to prepare synthetic records for student research projects.
- Checked duplicate rows and documented data-quality issues in weekly reports.

PROJECTS

Campus Energy Dashboard | University capstone 2026

- Built Tableau reports from a synthetic campus energy dataset.
- Used SQL to compare monthly records and Python to test data transformations.
- Presented the results and limitations in a written project report.

Student Society Budget | Volunteer project 2025

- Used Microsoft Excel to organize an invented event budget and track expenses.
- Reviewed spreadsheet formulas and explained the results to the project team.

LEADERSHIP

Project Coordinator | Campus Data Club (fictional) 2026

- Coordinated a student dashboard project and recorded decisions after reviews.
- Practised Active Listening and Critical Thinking during team discussions.

ACTIVITIES

Peer Study Group | Harbourview University (fictional) 2025

- Helped classmates practise SQL queries using synthetic teaching datasets.

SKILLS

Tools: Python, SQL, Microsoft Excel, Tableau.
General skills: Reading Comprehension, Writing, Active Listening, Critical Thinking.
